

St Bede's Catholic school & 6th Form College

Careers Education, Information, Advice and Guidance (CEIAG)

St Bede's prides itself in preparing students for the next stage of their life, not only academically but in relation to future career pathways. Where 'career' was once thought of as a single commitment to a lifelong occupational pursuit, it is now thought of as a lifelong journey whereby individuals participate in differing learning and work roles. At St Bede's we hope to contribute to and prepare young people for that journey.

We have relevant Careers Education modules built into our PHSE programme from Year 7 through to 6th Form which draw upon many visiting speakers from local organisations, FE Colleges and Universities.

Within our programme students:

- Learn about the structures, systems and factors that guide, shape and influence people's career prospects and career development
- Explore how these could affect their future choices, why they need to consider them when making their own career decisions and plans, and how they can do so
- Develop and practice the self-help skills they need to progress their own career plans and development, including the effective use of IAG (Information, Advice & Guidance)

Careers Information – students have access to accurate, up-to-date and objective information on opportunities, progression routes, choices, where to find help and advice and how to access it. We work in partnership with local colleges and employers to ensure students have access to the best opportunities in the career market. We also use relevant Labour Market Intelligence data to help students make informed choices.

Careers Advice – We have a range of activities that help young people to gather, understand and interpret information and apply it to their own situation. For example, we have a Careers Carousel events for every year group from Y7 to 6th Form and a Careers Convention in Year 12 which allows students to discuss careers with industry ambassadors from a vast range of sectors, Colleges and Universities.

Careers Guidance – we provide impartial guidance and specialist support to help young people understand themselves and their needs, confront barriers, resolve conflicts, develop new perspectives and make progress. All Year 11 students have a one-to-one Progression Interview with our Progression manager, Anne Jukes, to prepare them for post 16 choices. All other year groups can book appointments or drop-in during break or lunchtimes or free periods to access IAG.

The careers programme includes careers education sessions, career guidance activities (e.g. group work and individual interviews), information and research activities using the school computer network and work related learning, work experience, and individual learning planning/portfolio activities.

Careers lessons are part of the school's personal development programme. Other focused events, e.g. a further/higher education fair are provided at different times of the year. Work experience preparation, debrief and evaluation take place in PSHE/careers lessons and other appropriate parts of the curriculum. Learners are involved in the planning of career learning. Their views are collected using student voice/surveys.

Impact of CEIAG

At St Bede's we judge the impact of CEIAG through

- examining & evaluating what we do,
- thinking about how we can improve it,

- deciding on whether it was worth doing again in that particular format (we pilot many activities before extending to full scale),
- providing summaries to disseminate understanding of what was done to stakeholders such as parents/students/staff/governing body/visiting organisations involved with careers events.

All our CEIAG work is mapped against the CDI Framework, Gatsby Benchmarks and the PSHE Framework

The main purpose of the CDI's Career Development Framework is to clarify the skills, knowledge, and attitudes that individuals need to have a positive career. A 'positive career' will mean something different to everyone, but it will typically include being happy with the way you spend your time, being able to make a contribution to your community and being able to have a decent standard of living.

The six learning areas

- Grow throughout life by learning and reflecting about yourself, your background, and your strengths
- Explore the full range of possibilities open to you
- Manage your career actively; making the most of opportunities, and learning from setbacks
- Create opportunities by being proactive and building positive relationships with others
- Balance life and work effectively
- See the big picture by paying attention to how the economy, politics and society connect with, and affect your own life and career.

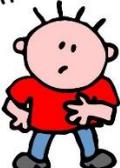

Gatsby Benchmarks

Good career guidance helps inspire students towards further study and enables them to make informed decisions whenever choices are open to them. It helps them to understand enough about the world of work to know what skills they need to succeed. It is important for social mobility because it helps open students' eyes to careers, they may not have considered. With support from our North East Local Enterprise Partnership Careers Hub and The Careers Company we are working towards meeting the eight benchmarks

Gatsby Benchmark 1 A stable career programme	Gatsby Benchmark 2 Learning from career and labour market information	Gatsby Benchmark 3. Addressing the needs of each pupil	Gatsby Benchmark 4 Linking curriculum learning to careers
Gatsby Benchmark 5 Encounters with employers and employees	Gatsby Benchmark 6 Experiences of workplaces	Gatsby Benchmark 7 Encounters with further and higher education	Gatsby Benchmark 8 Personal guidance
